MONEY IS COINC TO THE STOCKMEN

Prest, Hills of the Deseret National Bank Makes a Business Talk.

OUTLOOK GENERALLY GOOD

Something About Padded Clearings And the Cause Thereof-Too Many Incorporations.

President L. S. Hills of the Descret National bank, in commenting on business matters this morning, said that the local situation is gratifying. There is a good demand for money, at good rates; and the rates, now at 8 and 10 per cent, have a tendency to increase slightly. At this time of the year, most of the loans are going to the stockmen who as a rule are able to give good security. This money goes for feeding until the grass starts, and this class of loans is in more demand this spring than a year ago. There is at presen some demand for money by builders but their time comes along a little later when they will have the prominence now taken by the stockmen. The sheepmen will borrow up to shearing time.
The mining outlook is brighter, as the prices of metals are more favorable, time. And the agricultural situation with the amount of snow there is now in the mounthins, could hardly be bet the falling off in the bank clearings this winter, Mr. Hills said that did not re-flect the real state of the money market, and that the clearings were padded.
Mr. Hills did not hesitate, but spoke
right out. Said he: "For Instance, a
bank makes no collection of an account but allows it to run. That account i reported daily in the clearings until the gregate. But when the account is col-lected, the sum involved fails to show up in the clearings. That was done to such an extent a year ago that the dally clearings were made to appear

Mr. Hills thinks there are too many neorporations in the country for the money market to properly take care of, and the burdens thereby imposed are good deal of a strain. But on the situation, he considers it a marked improvement over last year, and looks for good season to come.

BUSINESS NOTES.

The week has witnessed a number of large transactions in local stocks. The overshadowing feature has been the entrance of another sugar security into the list and one that bids fair to be a strong favorite. Immediately after the incorporation of the Idaho Sugar company the stock began to come into prominence, and from bids of 25c a share the figure this afternoon reached \$1 premium, so that the newcomer shows an advance of 10 per cent as soon before a pick has been struck in the ground for the excavation of the factory. Another feature has been the heavy trading in Utah Sugar common, which has advanced to \$4 per share The latest quotations are as follows:

Salt Lake stands thirty-eighth in this week's list of bank clearings by Bradstreet, with figures at \$2,730,737; a decrease of 33.8 per cent from the corresponding week of last year. Portland, Me., shows a falling off of 64.4 per cent, and Peorla a falling off of 28.9

It was expected that a decision would be arrived at by this evening in the selection of a set of plans for the new Atlas block. The competing architects are: Ware & Treganza, J. C. Craig, J. C. Headiund & Co., F. D. Ulmer, and D. C. Dart. J. P. Hill submitted plans but withdrew them. It is proposed to push the work as rapidly as possible so as to have the new building up in a year's time. It will look a good deal better than the old Walker Opera House block, latterly known as the Atlas, and will be a credit to the city.

Everything is bustle and activity in the new Keith-O'Brien store in preparation for the opening, and goods are being placed on the shelves, and in the show cases as fast as the mechanics finish them. The expectation is now week.

Simpkins of the Salt Lake Press. ed Brick company remarked this morning that the demand for brick this year would be one-third greater than it was last your but formeste ly, he said, the local brick companies are now so well stocked up that it would take twice the demand of last year to press them. There is plenty of the yellow brick, which has become so fashionable. The Salt Lake company has just closed a contract for 400,000 brick for shipment to Idaho for use in the construction of the new sugar fac-tory there; and is also shipping brick for the sugar factory in Boxelder. Mr. Simpkins says there will be no brick famine this year, and that prices re-main the same. He holds that the shale in Parleys canyon makes brick equal to any made in the eastern

SMITH OPTIMISTIC.

Says the Forces for Good Are Increasing in This Nation.

There will be a special meeting for nen tomorrow morning from 9:30 to 0:30 in the rooms of the Y. M. C. A., there International Secretary F. B. Smith will perfect arrangements for the afternoon meeting in the Theater, An interesting feature of the evening neeting will be the singing of a double quartet from the Orpheus club; and then, the boys' chorus will sing again. In a brief talk this morning, with a 'News' reporter, Mr. Smith said that observation demonstrated to him pretty, clearly that the forces for good in this nation were increasing, and that while the forces of evil were also making hemselves felt, and very often, too, in very demonstrative manner, still the net gain was on the side of righteous-ness. But there is one thing that nuzzles him, and that is the liquor traf-He stated that Anthony Comstoc had told him that the consumption of spirituous and fermented liquors in the

inited States was increasing per capita of population, and no doubt the deruction of the liquor traffic would re mire some very radical action on the part of Divine providence.

Mr. Smith spoke very hopefully of the Y. M. C. A. work in this country. Last year there were, through the as sociation's influence, 50,000 men engaged in Bible study, 78,000 men attended the gospel meetings, and there were 12,000 conversions, over 5,000 of whom were known to unite with churches. Smith called attention to the fact that while the Methodist denomination used to be the advance guard in evangelical work, the mantle of that distinction now fell upon the Presbyterian church The latter is making remarkable stride in this direction, and evangelical wo

is being systematized all over the nation. Mr. Smith says there is a tr mendeous conflict going on between righteousness and unrighteousness this world, more so perhaps than ev

IN JUDGE DIEHL'S COURT. Four Boys Get Thirty Days in the County Jail.

A stranger might have thought Judge Delhi was conducting a kindergarten class in his courtroom this morning judging from the array of small boys resented before him. Eleven of them were lined up before the bar of justice to plead to charges of housebreaking and malicious mischlef. Ray Riley, aged 14 years; Fred Peterson, aged 17 years: James Peterson, aged 18 years, nd Herbert Williams, aged 15 years, each pleaded guilty to breaking into a car containing some fancy lumber and smearing it all over with waste and grease. It seems that the boys first ought a bottle of whisky and blackberry brandy and then proceeded to see now much property they could destroy. They admitted that they bought the West Temple and Twelfth them asked no questions when they made their demands for the stuff.

"The man who sold you boys the liquor should be punished, if there is any way to get at him," said Judge Deihl. Hood's Pills

"I have been a nurse for nineteen years, and I know of no better blood renovater than Hood's Sarsaparilla. It makes pure, rich blood, tones the liver and kidneys and invigorates the whole system. It has relieved one of my friends of catarrh and cured many others of blood diseases." A. C. PALMER, Rochester, New Hampshire.
